BUILDING SERVICE SOLUTIONS MAKING BUILDINGS WORK

WHY CHOOSE MODERN NIAGARA FOR BUILDING SERVICE?

We make buildings work – and we make it easy.

Whether your need is emergency service, preventive and proactive maintenance, or energy retrofits and capital upgrades, we can work with you to develop a strategy that protects your investment.

For more than 50 years, we have been involved in all aspects of the design and construction of industrial and commercial buildings. Our national Building Services division understands these buildings and the challenges their owners and managers face on a daily basis: rising energy costs, complex mechanical systems, and an increasing desire to meet corporate sustainability targets.

PLANNED MAINTENANCE MADE EASY

- Get more value out of your building and mechanical assets.
- Minimize unexpected downtime and expensive emergency service costs.
- Improve operational efficiency by servicing and tuning equipment.

AUTOMATING BUILDINGS NEW AND OLD

- Integrate and automate all your building systems – existing and new.
- Count on our experts for over-the-phone troubleshooting.
- Contact us – a single vendor – for support with systems from various manufacturers.

WE'VE GOT YOU COVERED, DAY AND NIGHT

- Highly skilled technicians can provide response times that meet your needs, 24/7.
- Receive troubleshooting, repair, and support for your building automation system anytime you need it.
- Get piping issues fixed on the spot with our expert plumbers.

BUILDING UPGRADES AND RENEWAL

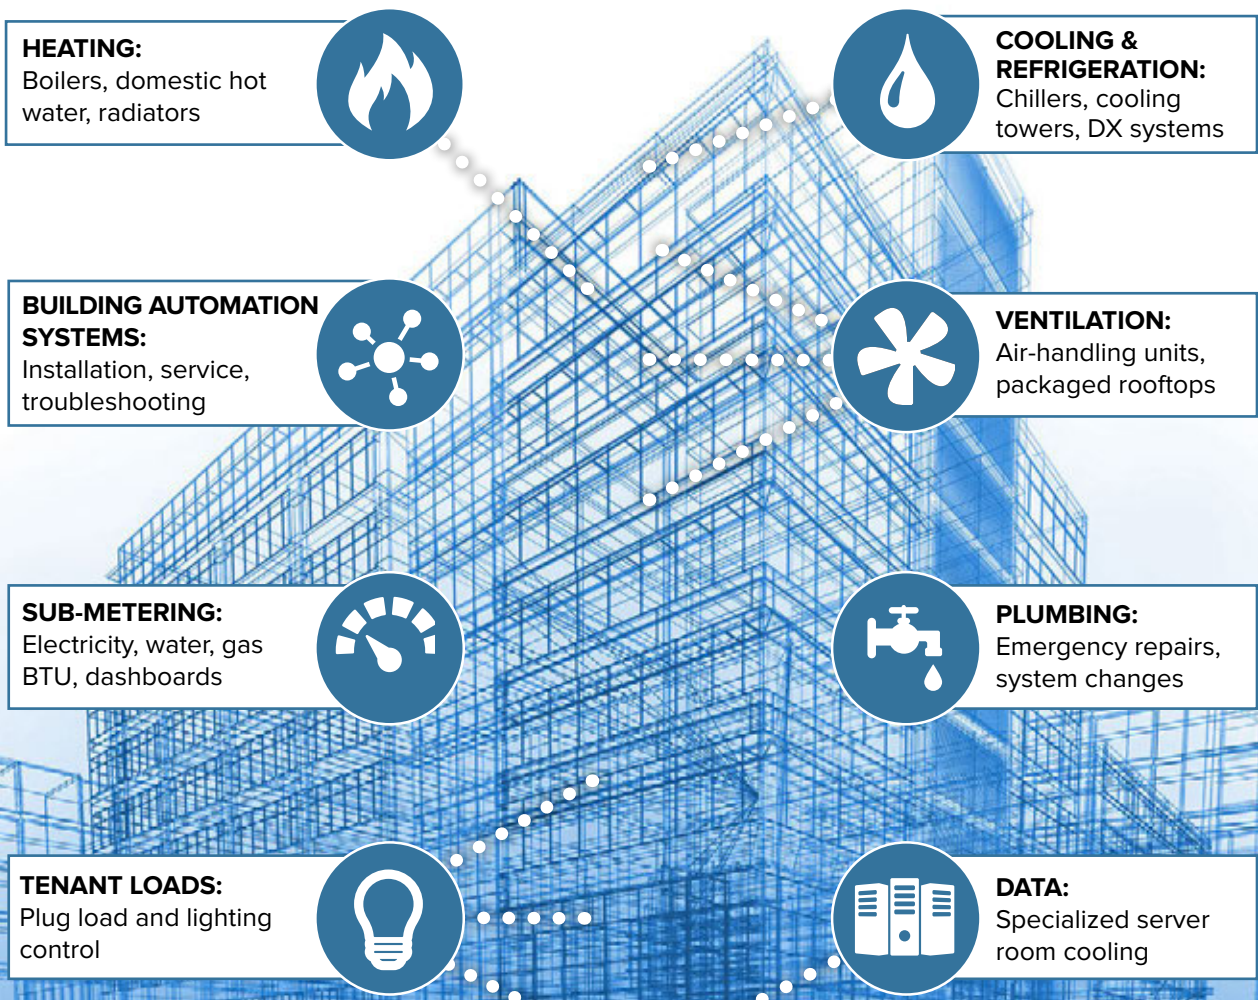

- Take advantage of opportunities to save money and reduce energy consumption.
- Let us calculate potential energy cost savings and obtain incentive rebates on your behalf.

FUTURE-READY APPROACH, TRUSTED & PROVEN TECHNOLOGY

*Our Building Services division is passionate about delivering real **value** through exceptional people, tools, and experience.*

Maintenance pays: our preventive maintenance programs have reduced our customers' operational costs by 10%-30%.

Incentives are real: we have helped customers obtain energy rebates covering up to half of their total project cost.

Design. Build. Service.

Tech Tool is our cloud-based information management platform. It's changing your experience by delivering consistency and efficiency in everything we do. And best of all: you see it happen in real-time.

Online portal for quotes, invoices, work orders and equipment repair histories – all instantly updated.

Actionable, on-the-spot work order production and direct reporting to you.

Notes with site-specific protocols so technicians never feel “new” to your site.

TRUSTED STRATEGY, SERVICE & SUPPORT

As a national leader in mechanical contracting for more than 50 years, Modern Niagara offers a substantial resource base, deep project management expertise, and financial stability.

We support those who own and operate complex systems and we take on projects of all sizes.

Modern Niagara Building Services division strives to deliver proactive and innovative solutions. The combination of our responsiveness, experience and culture of transparency makes working with us easy.
